#### **Explanation of terms**

"Generic Contract type" is the generic name of the annuity Contract form as approved by the Florida Office of Insurance Regulation or your state insurance department. Examples of generic annuity Contract names are Flexible premium equity indexed annuity (FPEIDA), Single premium immediate annuity (SPIA), Flexible premium variable deferred annuity (FPVDA), Single premium deferred annuity (SPDA), and Multi-year guarantee annuity (MYGA).

"Marketing/product name" is the name adopted by the insurer to identify the Contract form.

"Qualified Contract" means a product used to fund any type of pension plan approved by the Internal Revenue Service.

- "Annuity maturity date" is the final date of termination of the Contract at which time the proceeds of the Contract must be paid out.
- "Death benefit amount" is the net amount that would be paid to the Annuitant's designated Beneficiary or Beneficiaries of an existing annuity, or the death benefit that the proposed replacement policy would pay as of the Contract issue date.
- "Change of Annuitant upon death available" is a provision that allows another person to become the Annuitant upon the death of the original Annuitant allowing the Contract to remain in force.
- "Surrender charge period" is the number of annuity Contract years a surrender charge may be applicable.
- "Initial surrender charge percentage rate" is the original percentage rate that is deducted from annuity values at the inception of the existing annuity Contract, or that will deducted from the recommended replacement Contract at its inception if purchased.
- "Surrender charge percentage schedule for remaining years" the percentage rate that would be deducted from the existing annuity Contract if surrendered, or for any withdrawals exceeding the "free withdrawal" limit.
- "Free withdrawals" are the withdrawals that may be taken from an annuity's values that are not subject to surrender or other charges and are a provision of the annuity Contract.
- "Annual free withdrawal percentage rate" is the percentage of available funds that may be withdrawn from an annuity Contract, generally on an annual basis and is stated in the annuity Contract.
- "Describe any potential tax penalty for surrender/sale/exchange/annuitization" Potential tax liability associated with surrender (partial or full), exchange, penalty free distribution or annuitization. For further information, consult with your personal tax advisor professional.

## Explanation of terms (continued)

- "Waiver of surrender charge benefit or similar benefit or provision" is a benefit that is built into individual annuity Contracts or added by rider, endorsement or amendment. The benefits are triggered by a qualifying event associated with either the Annuitant or Owner, as specified in the Contract.
- "Minimum guaranteed interest rate" is the minimum interest rate payable under the annuity Contract as guaranteed by the insurer in the annuity Contract.
- "Current minimum guaranteed interest rate" is the rate the company decides to credit to your Contract at a particular time; this rate is commonly higher than the minimum guaranteed rate.
- "Interest rate cap/term" this is the maximum rate of interest the annuity will earn.
- "Index margin/term" the percentage amount that is subtracted from the percentage change in the index value. This percentage is sometimes referred to as the "margin" or "spread".
- "Participation rate" the participation rate decides how much of the increase in the index will be used to calculate the index-linked interest.
- "Indexing method" means the approach used to measure the amount of change, if any, in the index and includes annual reset (ratcheting), high-water mark and point-to-point. The index term is the period over which indexlinked interest is calculated.
- "Market value adjustment" is the increase or decrease in the surrender value of the Contract that is adjusted to reflect market fluctuations.
- "Initial bonus percentage or amount" is a bonus paid by the insurer, generally, at inception of the annuity Contract, and may be expressed as a percentage of the initial premium or other amount, or a dollar amount, and must be stated in the annuity Contract applied to accumulation value.
- "Potential loss of premium bonus if exchanged" refers to whether any bonus would be lost if the annuity Contract was exchanged or terminated for any reason.
- "Surrender charge" is the amount deducted from annuity Contract values upon surrender of an annuity, or for withdrawals exceeding any free withdrawal provision of the Contract, regardless how this charge is titled in the policy, e.g., deferred sales charge.
- "Administrative fees or margins" are charges that amount to the difference between the percentage gain in the index and the actual amount credited to the annuity Contract.
- "Asset fees" are the fees the insurer charges that are a percentage of the value of the annuity Contract.
