Secure your retirement savings with North American Guarantee Choice 5

Get more from your annuity with North American Guarantee Choice 5 multi-year guarantee annuity from North American Company for Life and Health Insurance®.

The single-premium, multi-year guarantee annuity (MYGA) is designed to help you reach your retirement goals and enjoy the financial freedom you so richly deserve.

What sets North American Guarantee Choice 5 apart?

North American Guarantee Choice 5 is a flexible solution with the potential for a better return than some other fixed-rate products. You have the ability to take some withdrawals penalty-free, and you get to choose if and when you want to start drawing income from the annuity.

We know the choices you make as you prepare for retirement may seem overwhelming, but you can count on the expertise of your insurance agent and North American to support you every step of the way.

Tax deferral improves growth potential

Your funds grow on a tax deferred basis, meaning more of it is working for you. You'll owe taxes on the back end when you access funds. But you choose when you'll pay taxes, giving you more control.

Under current law, annuities grow tax deferred. An annuity is not required for tax deferral in qualified plans. Annuities may be subject to taxation during the income or withdrawal phase. Please note that neither North American, nor any agents acting on its behalf, should be viewed as providing legal, tax or investment advice. Consult with and rely on your own qualified advisor.

The more you set aside, the better your rate

Contribute \$100,000 or more (known as your annuity premium), and you'll receive a higher interest rate.

Provide a lasting legacy

Your beneficiaries will get the remaining value of your annuity as a death benefit – either in an immediate lump sum or in installments. And, because annuities may avoid probate, they may not have to wait.

Please consult with and rely on your own legal or tax advisor and refer to your contract for situations of joint owners and annuitants.

Issue ages *(may vary by state)*

Available to issue ages 0-90 (qualified and non-qualified)

For issue ages 0-17, a Uniform Gift to Minors Act (UGMA) or Uniform Transfers to Minors Act (UTMA) custodial account must be established.

Minimum premium/premium banding

Single premium, \$10,000 non-qualified and \$2,000 qualified.

Premium banding on interest rates - for initial premium amounts of \$100,000 or more, you will receive a higher interest rate.

Low band: Less than \$100,000 and

High band: \$100,000 or more.

Why choose North American?

In good times and in bad, over the last 30 years, we've remained one of the most highly rated insurance companies in the U.S., rated A+ (Superior) by A.M. Best.[®]

Options for accessing funds

North American Guarantee Choice 5 offers a variety of features to make it easier to access funds on your schedule.

Your payout options

You may decide to begin receiving income payments from your annuity at the end of each guarantee period (in Florida, after the first contract year). These optional payouts are available in deferred annuities like North American Guarantee Choice 5 but are not required.

Once a payout option is elected, however, it can't be changed, and all other rights and benefits under the annuity end.

If you chose to put in money that was already taxed, your annuity would be considered a non-qualified plan. A portion of each income payout from a non-qualified plan would be considered a return of premium. That amount would not be taxable.

In all states except Florida, by current company practice*, you may receive an income from the accumulation value after the first contract year without surrender charges or market value adjustment) if you choose a life income option.

**A feature offered "by current company practice" is not a contractual guarantee of this annuity contract and can be removed or changed at any time.*

Payout options

With the exception of life income options, income options are available from five to 20 years.

Choose from:

- Income for a specified period
- Income for a specified amount
- Life income with a period certain
- Life income
- Joint and survivor life income

For Florida:

You may select an annuity payout option based on the accumulation value at any time after the first contract year.

Choose from:

- Life income
- Life income with a 10-year period certain
- Life income with a 20-year period certain
- Joint and survivor life income
- Joint and survivor life income with a 10- or 20-year period certain

What if you need funds sooner than you planned?

Like most annuities, you'll be limited in when and how much you can withdraw from your annuity. However, North American Guarantee Choice 5 does allow you access to a portion of funds each year equal to the interest earned that year.

Taking out more funds will incur a charge, called a surrender charge, which applies during the five-year guarantee period. A market value adjustment also applies during the five-year guarantee period.

Withdrawals may be treated by the government as ordinary income. If taken prior to age 59 1/2, a withdrawal could also be subject to a 10% IRS penalty. Withdrawals will reduce your accumulation value accordingly.

How and when you can take penalty-free withdrawals

After the first contract anniversary, you may choose to take a penalty-free withdrawal (also known as a penalty-free partial surrender) equal to the interest earned for the current contract year. If you withdraw more than interest earned in a year, a surrender charge and market value adjustment may apply.

By current company practice*, you can elect to receive interest withdrawal payments on a monthly, quarterly, semi-annual or annual basis, beginning as early as 30 days after your annuity is issued. Called a systematic withdrawal, these scheduled payments are penalty-free but must be at least \$50 each.

Required minimum distribution

Surrender charges and market value adjustments on any portion of an IRS-required minimum distributions exceeding the penalty-free withdrawal amount will be waived by current company practice*.

Nursing home confinement waiver

After the first contract anniversary, if the annuitant becomes confined to a qualified nursing home facility for at least 90 consecutive days, we will increase the penalty-free withdrawal amount by 10% of the accumulation value each year while the annuitant is confined. This waiver is only available for issue ages 75 and younger and is automatically included with your annuity at no additional charge.

In states where waiver is approved. Please contact your sales representative for state availability. If joint annuitants are named on the annuity, waiver will apply to the first annuitant who qualifies for the benefit.

Renewal options available to you when your guarantee period is up

When your annuity reaches the end of your five-year guarantee period, you're able to renew your annuity for another five-year period at a new guaranteed interest rate. You will have a 30-day window to renew your guarantee period, elect a payout option or withdraw your accumulation value. If no election is made, we'll automatically renew your annuity for the five-year guarantee period as described in your contract.

Within this 30-day window, no surrender charges or market value adjustment will apply. After the 30-day window, a new guarantee period, guarantee period interest rate, surrender charge schedule and market value adjustment will be applied. **In California, Florida, and Delaware, after the 30-day window, a new guarantee period interest rate and market value adjustment will apply, and surrender charges cease.**

If you renew and start a new five-year guarantee period, the interest rate may differ from the interest rate during your initial guarantee period.

** A feature offered "by current company practice" is not a contractual guarantee of this annuity contract and can be removed or changed at any time.*

Additional product features

Market value adjustment

North American Guarantee Choice 5 also includes a market value adjustment that will be applied during each five-year guarantee period. The market value adjustment may decrease or increase your surrender value, depending on the change in interest rates since the beginning of the guarantee period.

Lower interest rates at time of issue may result in less opportunity for a positive market value adjustment in future contract years. In certain rate scenarios at the time of issue, it may not be possible to experience a positive market value adjustment.

Due to the mechanics of a market value adjustment feature, the surrender value generally decreases as interest rates rise or remain constant. Likewise, when interest rates have decreased enough over a period of time, the surrender value generally increases. However, the market value adjustment is limited to the interest credited to the accumulation value.

The market value adjustment is applied to amounts withdrawn (as a full or partial surrender) that exceed the applicable penalty-free amount.

See the "Understanding the market value adjustment" brochure for more information.

Surrender value

The surrender value is the amount that is available at the time of surrender. The surrender value is equal to the accumulation value, subject to the market value adjustment, less applicable surrender charges and state premium taxes (where applicable). The minimum surrender value will not be less than 87.5% of all premiums; less any partial surrenders (after market value adjustment or reductions for surrender charges); accumulated at 1%, or otherwise directed by your Contract.

Surrender charges

Surrender charges allow the company to invest funds on a long-term basis and generally credit higher rates than possible with a similar annuity of shorter term.

During the guarantee period, a surrender charge is assessed on any amount withdrawn, whether as a partial or full surrender, that exceeds the penalty-free amount applicable and may result in a loss of premium.

A surrender during each guarantee period could result in a loss of premium. Surrender charge structure may vary by state.

This product and its features may not be available in all states or appropriate for all clients.

Premium taxes: Accumulation value will be reduced for premium taxes as required by the state of residence.

Special notice regarding the use of a living trust as owner or beneficiary of this annuity.

The use of living trusts in connection with an annuity contract can be a valuable planning mechanism. However, a living trust is not appropriate when mass-produced in connection with the sale of an insurance product. We strongly suggest you seek the advice of your qualified legal advisor concerning the use of a trust with an annuity contract.

Neither North American, nor any agents acting on its behalf, should be viewed as providing legal, tax or investment advice. Consult with and rely on a qualified advisor. Under current law, annuities grow tax deferred. Annuities may be subject to taxation during the income or withdrawal phase. The tax-deferred feature is not necessary for a tax-qualified plan. In such instances, you should consider whether other features, such as the death benefit, lifetime annuity payments, and any other features make the Contract appropriate for your needs.

North American is a Sammons Financial company.

We are committed to our customers, distribution partners, employees and communities – and the deeply rooted belief that we grow stronger together.

With so much change happening in the world, people are looking for companies that can stand the test of time. They need a partner that can weather life's storms. That's us. For over a century, we have been here for our customers and honoring our commitments. And because we're privately owned, we don't measure our impact by the number of years we've been in business, investor goals or size of the company. We are proud of our impact of the financial futures we help secure, and the legacies we help establish.

We believe that we aren't here to serve just today's customers, but customers for generations to come. As we look ahead to our next hundred years, that fundamental principle remains rich in its vision. No matter how much change happens in the world around us, we will find new ways to create value for our customers.

Just like always.

North American has continued to earn high ratings, based on our financial strength, operating performance, and ability to meet obligations to our policyholders and contract holders. North American currently holds the following ratings:

“A+”

A.M. Best^{A,B} (Superior) (Second category of 15)

S&P Global Ratings^{B,C} (Strong) (Fifth category of 22)
