Performance	Strong cash value accumulation potential and consumer-friendly design can make this a high performer for your financial goals

Security

Guarantee Builder IUL is indexed universal life insurance (IUL) that offers guaranteed death benefit protection up to age 120, along with the ability to accumulate cash value.¹

Like other forms of permanent life insurance, your premium payments (less monthly deductions) can earn interest and grow cash value by linking your policy's interest to a stock market index. Depending on the performance of the selected index, your policy has the potential for strong cash value accumulation. But, because you don't participate directly in the stock market, your cash value remains protected, even if the market goes down. The credited interest rate will never be less than zero percent—guaranteed!

Guarantee Builder IUL also offers an annual reset feature. This feature acts like a ratchet, locking in each year's credited interest rate on the Index Crediting Date so that gains cannot be eroded by any market volatility. This means that your accumulated funds cannot lose value due to a downturn in the market.

Control

Guarantee Builder IUL help you stay in control of your financial plans with access to the cash value of your policy. Whether it's a temporary financial setback, or part of your retirement planning, you have options available to access your policy's cash value through Partial Withdrawals, Variable Interest Rate Loans, and Standard Loans.

Want more options? All of North American IUL products offer you 13 index selections to choose from, allowing you to customize a plan that's right for you.

In the event of an unexpected illness, Guarantee Builder IUL offers coverage for critical, chronic and terminal illness.² These features provide the owner access to a great benefit with no additional premium at issue³ and allow the owner to accelerate a portion of the death benefit when certain conditions are met. These accelerated death benefit proceeds can be used to help cover the cost of care or other expenses.

1 After the policy's no lapse guarantee period, coverage can be guaranteed to any age up to age 120 through the Premium Guarantee Rider. Coverage is guaranteed provided the no lapse guarantee premium requirement is met. If you do not meet the requirement significantly higher premiums may be necessary to keep the policy in force. Paying a premium that is equal to, but not greater than the no lapse guarantee premium will keep the policy in force but may result in a negative or zero account value. By paying only the no lapse guarantee premium you may be forgoing the advantage of building more cash values.

2 Qualifying events and specific medical conditions for chronic, critical and terminal illness may vary. Please refer to form numbers LR465, LR477 and LR466 respectively for more details.

3 An administrative fee may be required at time of election of the benefit. The death benefit will be reduced by the amount of the death benefit accelerated. Since benefits are paid prior to death, a discount will be applied to the death benefit accelerated. As a result, the actual amount received will be less than the amount of the death benefit accelerated.

Texas Residents: Receipt of acceleration-of-life-insurance benefits may affect your, your spouse's or your family's eligibility for public assistance programs such as medical assistance (Medicaid), Aid to Families with Dependent Children (AFDC), supplementary social security income (SSI), and drug assistance programs. You are advised to consult with a qualified tax advisor and with social service agencies concerning how receipt of such a payment will affect your, your spouse's and your family's eligibility for public assistance.
