The Makings of a Winner

Builder Plus IUL 3 with the Fidelity Multifactor Yield IndexSM 5% ER

Builder Plus 3 offers eight different index selections. However, the reduced volatility of this index from Fidelity creates the opportunity for North American to purchase the underlying options at a lower cost.

North American reinvested the cost savings into a high participation rate, no cap, and an interest bonus!

A Loan with a Bonus!

New! Fixed Interest Participating Policy Loans

How it works: We declare an interest rate for the loan like a fixed loan, yet the loaned money still participates in the index account. We also credit a bonus on the loaned money! This loan – and the bonus – are available in policy year one.

The Fidelity Multifactor Yield Index 5% ER (the "Index") is a multi-asset index, offering exposure to companies with attractive valuations, high quality profiles, positive momentum signals, lower volatility and higher dividend yield than the broader market, as well as U.S. treasuries, which may reduce volatility over time. Fidelity and its related marks are service marks of FMR LLC. Fidelity Product Services LLC ("FPS") has licensed this index for use for certain purposes to North American Company for Life and Health Insurance® (the "Company") on behalf of the Product. The net cost of Fixed Interest Participating Policy Loans and Variable Interest Participating Policy Loans could be negative if the credits earned are less than the interest charged. The net cost of the loan could also be larger than under standard policy loans if the amount credited is less than the interest charged. In the extreme example, the amount credited could be zero and the net cost of the loan would equal the maximum interest rate charged less any guaranteed bonus. In brief, these loan types have more uncertainty than Standard Policy Loans in the interest rate credited.

Net Zero Cost Loans are loans charged and credited at the same interest rate percentage for a net zero cost. The policy year and amount available vary by product. Please refer to the specific product marketing guide for details.
