## New business guidelines

Interest rates and interest credit factors (“rates”) can change after we receive applications and before we receive the premiums. In order to qualify for a rate hold, we must receive the signed application within 10 days **AND** must receive premium within 60 days of application signed date. Rates will be based on application signed date. If the 60th day falls on a weekend or holiday, the premium must be received on the business day before the weekend or holiday. The fixed and index account rates are guaranteed for the contract’s surrender charge period. These interest rates and interest credit factors are reflected on the annual statement.

Product features, riders and index options may not be available in all states or appropriate for all clients.

Fixed index annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from the accumulation value for optional benefit riders or strategy fees or charges associated with allocations to enhanced crediting methods could exceed interest credited to the accumulation value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index.

**Surrender charge:** A surrender during the surrender charge period could result in a loss of premium. Surrender charge structure may vary by state.

**Index accounts:** Crediting methods such as index cap rates, participation rates, and index margins apply to index accounts only; not to the fixed account. Crediting methods and indexes are not available on all products or in all states.
